

Thank You for your support

By supporting Children 1st you are changing the lives of children across Scotland, making sure they feel safe and loved and can look forward to a brighter future.

Children 1st work alongside families to prevent abuse and neglect, and to protect children from harm. When the worst happens, we help survivors of abuse and trauma to recover, and we work tirelessly to protect the rights of children in Scotland. Our national helpline and digital support service, Parentline, offers a helping hand to any family in Scotland at the touch of a button.
