The CJSJM service is an important part of the process of joining up to the Justice System in England and Wales and beyond. It allows people working in the Justice System, including public, private and voluntary organisations, to send emails containing information up to an equivalent of 'OFFICIAL', including 'OFFICIAL SENSITIVE', in a secure way.

CJSJM uses dedicated email services to securely transmit emails between connected justice partners. Once connected, practitioners can use CJSJM to send secure emails to each other and public sector justice organisations.
